Emerald City Floorball is making hockey for everyone with our low barrier to entry. Floorball is fun, fast, safe, affordable and inclusive, making it a popular sport for kids and parents alike. Kids will learn the basics of hockey, learning how to play with and without the ball, learning valuable skills such as teamwork, competitiveness and communication. All resulting from our fun curriculum and our high energy scrimmages. So have some fun with us this year during conference week. Emerald City Floorball, making hockey kewl in school again.
